

HAN-YU CHEN Software Engineer

+(886) 937-583-271 hank860502@gmail.com | [Github Hank860502](#) | [Linkedin Hank860502](#)

Summary

Playing tennis at the professional level since my teenage years allowed me to bring discipline, integrity and perseverance to software engineering. I thrive in fast-paced environments with teams with diverse perspectives.

Skills

Languages

Ruby, JavaScript, HTML, CSS, Python

Frameworks

SQLite, Active Record, Capybara, Firebase, React Native, JQuery, RSpec, Jasmine, Git, C3.js, Materialize, Bootstrap

Others

Mandarin, English, Team Management, Public Speaking, Engineering Empathy, Agile Development, Tennis

Projects

Pioneer June, 2016-present [code](#)

- Mobile travel application that gives user inspiration to plan on their trip to anywhere in the world
- Program with React Native and Ruby on Rails
- Team Lead

Ruby Gem June, 2016 [live](#) | [code](#)

- Gem that generates fake data
- Program with Ruby
- Full stack developer

Follow me August, 2016 [live](#) | [code](#)

- Platform cooperates with smart glasses from TopSmart to enhance quality of traveling
- Program with Ruby, launching smart glasses, Bootstrap
- Two days Makerthon, the most creative team awards
- Full stack developer

Leadership

Team lead, Pioneer-2016

- Final Project at Dev Bootcamp

Initiator, Farewell to Childhood Bike Tour-2010

- Fundraised \$6000 for a charity by riding bicycle for 100km in 8 hours

Captain, Tennis Team-2008

- Initiated and led an off-site training of climbing Yushan, the highest mountain (3952m) in Taiwan

Experiences

Sponsored Player, Adidas -2013-present

- One of two junior players sponsored by Adidas in Taiwan
- Represented Adidas to play international tennis tournaments

Sponsored Player, Yonex -2012-present

- Represented Yonex to play international tennis tournaments

Elite Player, Hope Tennis Academy, Taichung, Taiwan -2007-present

- Only elite Taiwanese player in the intensive program in Hope Tennis Academy
- Invested over 14880 hours in 9 years

ITF Tennis Player -2011-2015

- Competed with players from 15+ different countries
- Traveled around 10+ countries, 20+ weeks a year

Achievements

- Two Ruby gems, 320 downloads in 24 hours June, 2016
- Live application demo in front of 200+ people July, 2016
- Pitched personal project in one minute to 100+ people June, 2016
- Ranked #367 in International Tennis Federation Dec, 2014

Education

Emory University, Class of 2021

Dev Bootcamp, Class of July 2016

- Trained to be web developer
- Completed 18 weeks of over 1000 hours of coding challenges, pair programming and team-building skills
- Learned 5 different languages and 10+ frameworks
- Practiced dynamic teamwork, pair programming and giving Actionable, Specific, Kind feedbacks
